SUMMARY

As a Frontend Developer, I bring expertise in HTML, CSS, Bootstrap, JavaScript, and React.js to develop modern, responsive, and interactive web applications. My focus on UI/UX design allows me to create intuitive, high-performance interfaces that enhance user engagement. I am passionate about transforming ideas into visually appealing digital experiences while ensuring seamless functionality across all devices.

PROJECTS

1. UrbanGent ([Link](#))

Designed and developed UrbanGent, a fully responsive men's clothing website that blends modern aesthetics with seamless usability. The platform offers an intuitive browsing experience, stylish product displays, and a mobile-friendly interface, ensuring accessibility across all devices.

2. MovieVista ([Link](#))

Developed a dynamic movie website designed to deliver an immersive and engaging user experience. With sleek visuals and smooth navigation, it captivates movie enthusiasts while ensuring seamless accessibility across all devices. The platform is fully optimized for responsiveness, providing a visually stunning interface on any screen size.

EXPERIENCE

1. Full Stack Developer Intern (Vibgyor Advicorp Pvt Ltd.) – Jan 2025 - Mar 2025

Developed a Full-Stack HRMS (Human Resource Management System) during my internship, featuring separate dashboards for Admin and Employees.

Admin Panel: Assign tasks, manage permissions, and approve/reject leave requests.

Employee Panel: Request leave (sick, casual, etc.) and track assigned tasks.

2. Frontend Developer Intern (Chintara) Sep 2024 – Jan 2025

Gained Hands-on experience in frontend development, improving website responsiveness and optimizing UI/UX.

Website Optimization: Made HTML pages fully responsive using CSS, Bootstrap, and JavaScript.

SEO Implementation: Enhanced website performance and search engine visibility.

Additional Tasks: Worked on multiple projects, refining UI elements and ensuring cross-browser compatibility.
